

CCSO SPONSORSHIP OPPORTUNITIES PACKAGE

2023–24 ACADEMIC YEAR

WHO IS CCSO?

The Competitive Cyber Security Organization at Penn State, University Park Campus

We are MENTORS: CCSO club members gain hands-on lessons on various cybersecurity, physical security, business, and computer science topics. Each meeting features hands on challenges to help students practice their skills outside of the classroom. Some examples include internal competitions, lockpicking workshops, and resume building events.

We are COMPETITORS: Our members compete in national competitions representing Penn State. We aim to provide our members with real world experience through competition, consistently placing in the top 4 of national cybersecurity competitions such as the [Department of Energy's CyberForce](#), the Collegiate Penetration Competition, and the [Mid-Atlantic Collegiate Cyber Defense Competition](#).

WHY SPONSOR US?

Recognition: Put your company branding on CCSO web materials and social media platforms to increase your presence at Penn State

Engagement: Attend our cyber focused career fair and sponsor your own workshops

Recruiting: Post your jobs and recruiting materials, access our members' resumes, and communicate with our pool of talent

Show Passion: CCSO aims to provide an equal opportunity experience for all Penn State students to foster a love of cybersecurity while simultaneously growing their skills. Your sponsorship will help us travel to different competitions to provide our members with experience and utilize equipment in regular meetings to provide real world skills and training.

WHAT WE CAN PROVIDE YOU

Donations of \$500 or more

- Logo displayed on CCSO's promotional materials
- Access to group recruiting events and CCSO career fairs at Penn State

Donations of \$1,000 or more

- Logo displayed on CCSO's promotional materials
